Had you ever heard of the medical term CoVid 19 one year ago? Did you ever think we would be experiencing this type of pandemic in the years, 2020 and 2021. Do you remember other epidemics or pandemics in history? Below is a very brief overview of some epidemics/pan-demics you may have heard of in the USA. Many of you may have been told of past relatives that actually died of these diseases.

Name	Year	Notes
Smallpox	First identified – 1600's.	Vaccine initiative eradicated disease in USA 1972. Anybody have the scar?
Typhoid	1906-1907	Vaccine introduced 1911 and antibiotic treatment 1948. Very rare in the USA now.
Diphtheria	1921	Mid 1920's the vaccine was introduced. The vaccine is now a required childhood vaccine and is part of a tetanus vaccine in adults also.
Polio	1916-1955	Many may remember the iron lung used for the treatment. Salk introduced the vaccine in 1955. In 1979, the USA was declared polio free.
H2N2 (Bird flu)	Summer of 1957	Now part of the yearly flu vaccine.
Measles	1981-1991	2 nd Measles vaccine (combined with the Mumps and Rubella vaccine) is now required. There are still cases, particularly with travelers.
H1N1 (Swine flu)	December 2009	Spread quickly then! A second flu vaccine recommended that year. Now part of our annual flu vaccine.
Pertussis (Whooping cough)	2010, 2014 Outbreaks every 3-5 years.	Vaccine part of childhood series; Vaccine given during pregnancy; Adults are recommended to receive at least 1 dose. (Tdap)
SARS-COV-2 (COVID 19)	2019, 2020, 2021	Vaccine December 2020.

**WE'RE
IN THIS
TOGETHER!**

continued

So, here we are in the year 2021. Practicing the 3 W's: Wash your hands; Wear a Mask; Watch your distance. Future generations will read about this time period and be amazed, just as we are with past history, hoping it never happens again. Unfortunately, they too may tell of relatives or someone they knew who died of the COVID 19 virus.

But, one might ask, where is God during this time? I see God every day in the healthcare workers and store clerks trying to keep us healthy and meet our basic needs of food, shelter and clothing. I see God in the persons arranging the vaccine clinics and working in adverse weather and poor workstation conditions assuring all receive their vaccine. I see God in the employees of assisted living facilities filling the void of the families that cannot visit. I see God in the scientist who have worked long hours to create treatment and vaccines for this virus. I see God in the ministerial staff attempting very different ways of worship, visitation and Bible Study caring for their flock. I see God in the audio/visual staff of many churches taking their time to assure the services are recorded and shared weekly, still spreading the love and God's word from the Bible. I see God in grandparents, parents, neighbors, friends and teachers trying to maintain a difficult education system for our children.

There is no doubt this is a trying, unprecedented time in history but God remains the same yesterday, today and tomorrow. Where do you see God?

Joshua 1:9, "Have I not commanded you? Be strong and courageous. Do not be frightened, and do not be dismayed, for the Lord your God is with you wherever you go."

We are Blessed. Beth

Our cleaning service will be here to clean and wax the floors in the Kitchen and adjacent fellowship area (Coffee Room) this Saturday, March 6.

Please do not plan to be in the basement area of the church this weekend. It would probably be best to give the floors until Monday to dry completely before accessing that area.

Sunday, March 14

Daylight Saving time begins

Remember to move your clocks forward on Saturday night!

Our Youth Group led by Ashley Walker and our Children on Mission led by Cheryl Walker presented a very meaningful worship service on Sunday, February 28, 2021. We appreciate all of the planning and hard work that made this such a memorable experience. We are grateful for the support of our guest minister, Rev. Michelle Anderson, a former Youth Pastor at Westwood Baptist Church in Cary. Thank you for a great service!
